We do not calculate class rank at Grier School. Because most of our students transfer to Grier School during high school from schools located all over the world, we cannot fairly calculate a cumulative grade point average to rank our students.

In the calculation of the grade point average, we include all grades from credit bearing courses earned at Grier School beginning in grade 9. We give 0.3 point weight to Honors courses and 0.5 point weight to Advanced Placement courses (AP). Credit from courses taken at other institutions does not appear on the Grier School transcript and is not used in the calculation of the grade point average.

Students are required to have a minimum of 24 credits for graduation.
